Name Kanak Raj Arora

Date 20-10-2024

Age 19 Years

Pat Id 27647243

Gender Male

Height 160cms

Weight 60kgs

Diagnosis

irritant contact dermatitis

Description

A skin rash caused by contact with a certain substance. The substance might irritate the skin or trigger an allergic reaction. Some common culprits include soap, cosmetics, fragrances, jewelry, and poison ivy. The main symptom is a red rash wherever the skin came into contact with the irritant. Avoiding the irritant or allergen should allow the rash to clear in two to four weeks. Creams or medications can help reduce itching.

S.No.	Prescribed Medicines	Dosage	Instructions
1.	Momate Cream (<i>Mometasone(0.1% w/w)</i>)	Daily: 0-0-1	14 Days; on the rash area;

Drug Allergies
